Digital Conference System Host

Features
- Using eight-core all-digital high-fidelity circuit development and design;
- Built-in RISC high-performance CPU as the core, stable system and fast calculation;
- The system host adopts liquid crystal display, and the menu operation is more intuitive and user friendly;
- The system host has 2 outputs, which can connect 120 units in total;

Model	MP9866
Power	SwitchAC220V
Static power dissipation	8W
Max Power	65W
Output power	?36W/18V/channel
Audio output	Impedance?100? unbalanced
Input sensitivity	100±10mV
Freq. Response	50-16kHz
S/N(S/N)	>65dB
HD	< 0.5%
Weight	About6.5KG
Size	484L x365W x88H (mm)

Exclusive Distributon in Bangladesh
